4. Fundamentals of Digital Marketing — Google | July 2025
5. Introduction to Digital Marketing Fundamentals — July 2025 | Certificate Code: 8555530

## PROJECT HIGHLIGHTS

### Face Recognition Attendance System | Java, SQL
• Developed a secure, real-time face recognition-based attendance tracking system for educational institutes.
• Integrated an SQL database to automate record management and improve reporting accuracy.

### E-Commerce Website | Java, HTML, CSS, SQL
• Built a responsive online shopping platform featuring user registration, product management, and secure order handling.
• Implemented cart functionality, order history, and dynamic product listing with an SQL backend.

### Hospital Management System | Java, HTML, CSS, SQL
• Designed and deployed a patient record and appointment management application with a clean,

intuitive interface.
 • Ensured secure data storage and efficient record management via a SQL-based database.

## LEARNING & DEVELOPMENT

- Strengthening problem-solving abilities through continuous DSA practice.
- Currently learning the MERN Stack (MongoDB, Express.js, React.js, Node.js) for full-stack application development.
- Pursuing Data Analytics via structured courses and practice-based projects.
- Exploring Computer Networking fundamentals to enhance backend system knowledge.

## EDUCATION

**Bachelor of Technology (B.Tech) in Computer Science and Information Technology (CSIT)**
 Dronacharya Group of Institutions, Greater Noida | AKTU University
 Expected Graduation: 2026

## SOFT SKILLS

Problem Solving | Team Collaboration | Communication | Time Management | Analytical Thinking | Adaptability | Quick Learning

## PERSONAL DETAILS

- **Date of Birth:** 31/03/2003
- **Languages Known:** English, Hindi
- **Nationality:** Indian
- **Hobbies:** Exploring technologies, coding challenges, digital marketing trends, and contributing to open-source projects
